PREAMBLE

This Preamble establishes the principles that should serve as the basis for the interpretation, application and development of these *By-Laws* of Iberdrola Energía Sostenible España, S.L. (Sociedad Unipersonal) (the “**Company**”), thus expanding the typical text of these corporate rules. The Company is part of an international industrial group of which IBERDROLA, S.A. is the listed controlling holding company (the “**Group**”) and whose decentralised decision-making corporate structure, inspired by the principle of subsidiarity, with robust coordination mechanisms, ensures the global integration of all the businesses of the Company’s group, in accordance with a Business Model geared towards leveraging the collective value of the businesses that make up the Group in the interest of all of the companies of which it is comprised, maintaining a system of checks and balances and a clear separation of functions and responsibilities. Based on the foregoing, the Company constitutes the head of business company for the energy generation business in Spain, which is responsible, based on the required corporate autonomy, for the day-to-day and effective management of said business constituting the corporate object thereof and, consequently, for its day-to-day control, without prejudice to the duty of organisation, supervision and strategic coordination assigned to Iberdrola España, S.A. (Sociedad Unipersonal) (“**Iberdrola España**”) as the Group’s country subholding company in Spain, complying in all cases with applicable legal provisions about separation of regulated activities. This Preamble also seeks to expressly state the Company’s commitment to the Purpose (*to continue building together each day a healthier, more accessible energy model, based on electricity*) and Values (*sustainable energy, integrating force and driving force*) of the Group, as well as to its *Code of Ethics*, which, as the foundation of its corporate philosophy and ethical principles, govern the Company’s activity constituting its corporate object and guide its business strategy and enterprise. The Company also shares the corporate interest of IBERDROLA, S.A. focused on the creation of sustainable value for all its members, taking into consideration and engaging the other Stakeholders related to the corporate activities and the institutional reality of the Group, sharing with them in the social dividend generated by its activities, particularly by means of contribution to the achievement of the Sustainable Development Goals (SDGs) adopted by the United Nations (UN) and compliance with the most stringent environmental, social commitment and corporate governance (ESG) requirements, which in sum characterise it as a company and an institutional reality, a player in the economic and social environment in which it carries out its activities. The *By-Laws* set out and contemplate the Governance and Sustainability System, that is, its own set of internal regulations, developed under the aforementioned corporate autonomy, to ensure by these rules its *raison d’être* and way of being, the construction of its identity, the achievement and implementation of the *Purpose and Values of the Iberdrola Group*, the creation of sustainable value that satisfies the corporate interest, and makes feasible and real the social dividend that it shares with all of its Stakeholders. Similarly, the *By-Laws* establish a well-developed Compliance System, which, integrated within the overall Governance and Sustainability System, is intended to prevent and manage the risk of regulatory or ethical violations or violations of the Governance and Sustainability System. To the extent applicable thereto, these *By-Laws*, of which this Preamble forms a part, govern the conduct of the Company’s governance bodies, senior management and other professionals within the Company, who shall have the duty to comply and the right to demand compliance herewith.
