

Proprietary Director of Iberdrola Energía Sostenible España, S.L.U.

Engineer in Industrial Organization and Industrial Technical Engineer from the Polytechnic University of Valencia.

RELEVANT PROFESSIONAL EXPERIENCE FOR THE PERFORMANCE OF ITS DUTIES

Currently, he is the Head of the Global Energy Generation Business at Iberdrola, reporting directly to the Group's CEO, with global responsibility for the energy generation businesses in the various countries where the Company operates.

He has worked in different companies within the Iberdrola Group for 23 years, holding various positions of responsibility. His in-depth knowledge of renewable energy is backed by extensive professional experience in the field, as evidenced by the various roles he has held since joining Iberdrola Ingeniería y Construcción in 2002, initially as Project Director for Engineering and Construction of wind farms. He later became Head of Operation and Maintenance for Iberdrola Renovables in Spain and international area. In 2018, he took on the role of Head of Global Operations and O&M in Spain and international area, after previously being Head of the Investment Office at Iberdrola Renovables.

In 2019, they joined Avangrid Renewables as Head of Operations and Onshore Asset Management (Chief Operating Officer) until his appointment as Head of the Onshore Business and Chief Officer Onshore at Avangrid Power, with responsibility for all Onshore business areas in the United States.

He is also Chair of the Safety and Health Committee of Iberdrola Renovables and has participated as a speaker at various congresses and conferences in Spain and the United States, as well as collaborating in renewable energy training programs at several Spanish universities.
